PROFESSIONAL SUMMARY

Senior Software Engineer and Tech Lead with 9+ years of experience designing, building, and scaling high-availability distributed systems in financial services. Strong backend and full-stack expertise across .NET, React, event-driven architectures, and AWS. Experienced in technical leadership, resilient platform engineering, and AI-driven software delivery.

CORE SKILLS

- Backend & APIs: C#, .NET 10, .NET Core, ASP.NET Core, REST APIs, BFF, Refit, Polly
- Frontend: React 19, Vite, Next.js, Angular, TypeScript
- Cloud & DevOps: AWS, Docker, ECS, Kubernetes, API Gateway, Elastic Load Balancing, CI/CD
- Architecture: Microservices, distributed systems, event-driven architecture, resilience patterns
- Data & Messaging: DynamoDB, PostgreSQL, SQL Server, Oracle, MongoDB, RabbitMQ
- Testing & Observability: xUnit, AutoBogus, Jest, Cypress, Datadog, CloudWatch, OpenSearch
- AI-assisted Delivery: AWS AI-DLC, Devin, Claude, reusable engineering skills

PROFESSIONAL EXPERIENCE

Itaú Unibanco - São Paulo, Brazil

Senior Software Engineer | Mar 2026 - Present

- Developing, from project inception, a full-stack succession planning calculator supporting estate and wealth planning for Private Bank clients.
- Implementing backend, frontend, and integrations on AWS with .NET 10, React 19 and Vite, BFF, API Gateway, Docker containers on ECS, Elastic Load Balancing, and DynamoDB.
- Building resilient API integrations with Refit and Polly, applying retry, timeout, and circuit breaker policies.
- Established an end-to-end AI-driven delivery workflow with AWS AI-DLC, Devin, and Claude, spanning story refinement, technical planning, implementation, testing, review, and documentation.
- Created reusable skills for generating interfaces from Figma components, building API Gateway contracts, and applying React and .NET standards across the engineering community.
- Applied the AI-driven workflow to reduce story completion time by nearly 80%; strengthened quality with xUnit, AutoBogus, Jest, and Cypress, plus logs, metrics, tracing, and dashboards in Datadog and CloudWatch.

BTG Pactual / Necton - São Paulo, Brazil

Senior Software Engineer / Tech Lead | Jun 2023 - Mar 2026

- Led the development and evolution of the Necton Portal and risk systems integrated with B3's LiNe pre-trade risk platform, defining engineering standards and supporting the squad.
- Architected and evolved distributed microservices with .NET, AWS, and Kubernetes, prioritizing availability, resilience, scalability, and observability.
- Developed the React and Next.js Necton Portal to automate Middle Office processes, financial document distribution, operational management, and critical service integrations.
- Modernized document generation and distribution with RabbitMQ and designed concurrency control for consumers across Kubernetes pods using PostgreSQL advisory transaction locks.
- Improved PostgreSQL queries and indexes and implemented production monitoring and diagnostics with Datadog and OpenSearch.

Sinqia (Evertec) - São Paulo, Brazil

Senior Software Engineer / Tech Lead | Jan 2018 - Jun 2023

- Evolved an investment management platform for investment banks, progressing from product support to feature development and technical leadership of the derivatives squad.
- Investigated and resolved production incidents across fixed income, structured notes, swaps, derivatives, and equities through business rule analysis, logs, and targeted fixes.
- Developed and modernized ASP.NET applications using .NET Framework and .NET Core, SQL Server, Oracle, RabbitMQ, and AKS.
- Led the derivatives backlog, technical decisions, code reviews, refinements, and engineering follow-up; optimized complex SQL through execution-plan analysis and indexing.

OTHER RELEVANT EXPERIENCE

- Via Varejo | Aug 2021 - Jan 2022 - Backend integration solutions for high-traffic retail platforms.
- Nestlé Brasil (TopMind) | Dec 2016 - Feb 2018 - Full-stack development with C# MVC, Entity Framework, JavaScript, HTML, and CSS.
- Easylux | Jan 2015 - May 2016 - Development and maintenance of internal web systems.

EDUCATION

- Technologist in Information Technology Management - FATEC Mauá, 2018
- Technical Degree in Electronics - ETEC Júlio de Mesquita, 2014
